Sukhpreet Singh

Android Developer

09509249048 | sukhpreetsingh19289@gmail.com | LinkedIn | GitHub | Website | Kota, India

PROFESSIONAL SUMMARY

I am a Computer Science student focusing on Data Structures and Algorithms and Android Development. I have hands-on experience using version control tools like Git and GitHub to manage my projects. I use C++ to strengthen my DSA fundamentals as I work towards becoming a professional software developer.

EDUCATIONS

Modi Institute of Technology | Kota, Rajasthan — Sep 2023

B. Tech, Computer Science and Engineering — *CGPA : 8.72*

- **Graduation** in **B. Tech**, Computer Science and Engineering (2023 – 2027)
- **Senior Secondary Science**, Bansal Public School, Kota, (CBSE Board), **Year of Completion**: 2022, Percentage Scored: 65%

PROJECTS

Employee Manager | Github — Oct 2026 - Oct 2026

Android Developer

- Developed a native Android application to manage employee records with functionality to add, view, update, and delete employee details.
- Integrated Room Persistence Library to store and manage employee records in a local SQLite database.
- Implemented DAO and ViewModel to handle database operations and manage UI-related data.
- Built the user interface using Jetpack Compose to display employee lists and individual employee details.

Technologies / Tools Used : *Kotlin, Jetpack Compose, Room Database, VIewModel, DAO, Git, GitHub, Android Studio*

Weather App | Kotlin, Jetpack Compose, Retrofit, REST API | Github — Oct 2026 - Oct 2026

Android Developer

- Developed an Android weather application using Kotlin and Jetpack Compose to retrieve and display weather information from the OpenWeather API.
- Integrated Retrofit for remote API communication and created data models to represent weather API responses.
- Implemented a basic ViewModel layer to handle weather API integration, with separate packages for data, UI, and ViewModel responsibilities.
- Used Git and GitHub for version control and project tracking.

Technologies / Tools Used : *Kotlin, Jetpack Compose, Git, GitHub, Api*

Student Task Manager App | Github — May 2026 - Jul 2026

Android Developer

- Developed a complete Android task management application using Kotlin and Jetpack Compose, released as a stable v1.0.0 application.
- Implemented user authentication, task management, deadline tracking, completed tasks, analytics, and local reminder notifications.
- Designed the application using the Repository pattern with SQLite for persistent local data storage and efficient CRUD operations.
- Built reusable Jetpack Compose UI components following Material Design principles to maintain a consistent user experience.
- Managed the project using Git and GitHub, including pre-release testing, versioned releases, and stable production release (v1.0.0).

Technologies / Tools Used : *Kotlin, Jetpack Compose, Git, GitHub*

Portfolio Website | Github — Jul 2025 - May 2026

Front-End Developer

1. Developed a personal portfolio website to showcase my Android development projects, technical skills, certifications, and resume in a clean and professional interface.
2. The portfolio serves as a central platform to present my work and provide easy access to project repositories and contact information.

Technologies / Tools Used : *GitHub, Netlify*

SKILLS

Frameworks & Libraries :	Jetpack Compose, Coroutines
Programming Languages :	Kotlin, CPP
Soft Skills :	Data Structures and Algorithms, Object-Oriented Programming, Problem-Solving
Tools & Platforms :	Git, GitHub

CERTIFICATIONS

GitHub Workflow Mastery
***Unstop* | Jul 2026**

- Achieved **GitHub Workflow Mastery certification**, encompassing **Git fundamentals**, branching, pull requests, merge conflict resolution, repository management, and collaborative development workflows.

Jetpack Compose - Android App Development Course with Jetpack
***Udemy* | Jul 2026**

- Completed an **Android Development course** focusing on **Kotlin**, Android Studio, and Jetpack Compose fundamentals. Gained hands-on experience in UI development, state management, navigation, and list implementation by building practical Android applications.
